SUCCESS OF THE TEMPERANCE WORK.

The ladies of the Women's Christian Temperance Union of Plainfield, N. J., held a temperance prayer meeting on Thursday, and in the evening, at the meeting of the Reform Club, the plans for the building were freely discussed. The preparations for furnishing the new building will be pushed to a speedy conclusion. The club will soon be incorporated, when it will assume full charge of the financial affairs connected with its management. Two union temperance meetings will be held to morrow evening and John H. French, president of the club, and John Cuthbert, one of the members, will conduct a meeting at Westfield to-morrow evening. The club will visit Elizabeth on Monday night. Only four arrests have been made since the temperance revival began four weeks ago.

The temperance fiver has reached Euglewood, and a petition will be presented to the court in April asking that no new licenses be granted for that town. W. G. Daughty is the leader of this new movement. He has devoted his time to some purpose the last two or three days in securing signatures to the petition, which bears the names of many prominent citizens and a large number of business men. Fortunately, or otherwise, for the hotel keepers, their licenses, with one exception, do not expire at the coming term of court. But the supposition among them is that the stand taken by the temperance people is but the beginning of the tend of their liquor selling, and they are qui e liftle troubled about the movement. The team of Closter, a few miles above Eugleweed, had a similar experience about two years ago, and now there is not a single hotel or beer shop in the place.

Captain Merritt, the State Committeeman, says that Mr. Belmont shall be renom inated by acclamation. William P. Donglas, a man of culture and wealth, of Great Neck, is widely talked of, but Belmont's most formidable opponent is ex-Senator Oakley, of Jamaica. He is already canvassing. "Tobaco fit for a king," is what was said of a famous brand of Havana clares. And it was, too; for it turned out to be the identical brand (\$\frac{1}{2}\$,000 per 1,000 which Louis Napoleon smoked. Where made! Havana, of what leaf! Now prepare for a surprise, yet the truth, by confession of the maker—of leaf imported from the Golden Tobacco iteit of North Carolina. That purity, favor, fragrance belongs to no other tobacco. Out of the very best of it is made Blackwell's Durham Long Cut, for pipe and cigatette smoking. The trademark of the Durham Bull and the Long Cut Brand give you the Emperor's tobacco.
